MOROBUY E-COMMERCE

MOROBUY

Morobuy is a new E - Commerce that has emerged to redefine the way we shop online. MoroBuy, a cutting-edge e-commerce platform, is poised to revolutionize the online shopping experience through its innovative approach to user interface (UI) and user experience (UX) design. This platform aims to set new standards in accessibility, convenience, and engagement, making online shopping a delight for users of all backgrounds and preferences. This project was made by me to complete the final task of Project Based Internship by Rakamin Academy in collaboration with UI/UX PT Nuri.

DISCOUNT HUNTER

Online Discount Application

Discount Hunter, is a simple application that was made by me and the groups. Which having goals to make the users easily get information about discount that able to use for various e-commerce. The way it work is by comparing the price of the product that are available itself between few e-commerce. In here I'm having responsibility to make the UI/UX for the Discount Hunter.

LUCID:RADIANTDREAMS
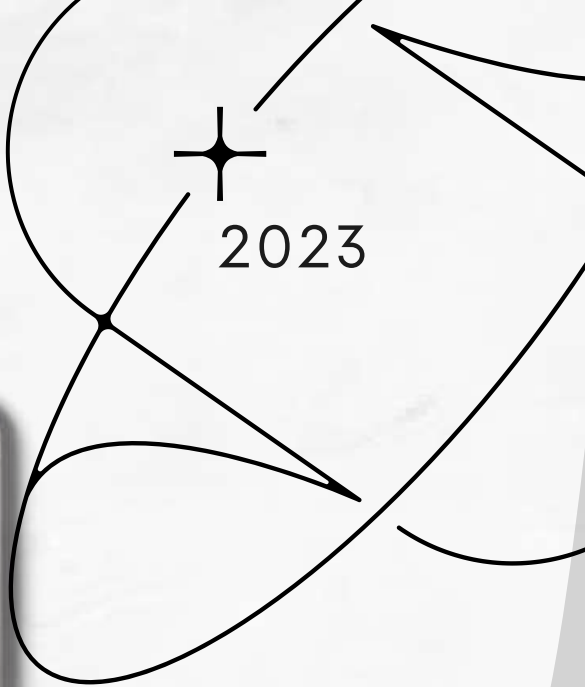

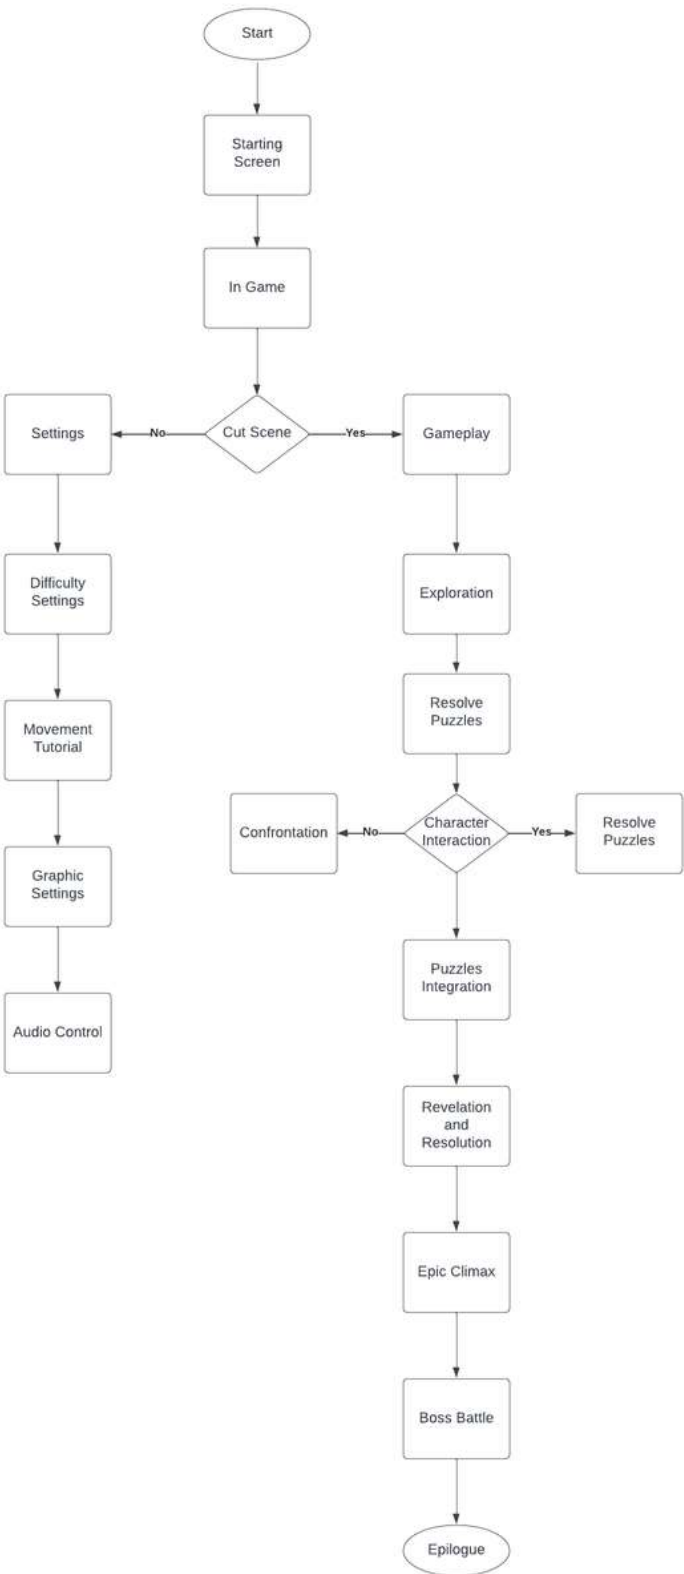

Psychological Thriller Offline Games

"Lucid" is an immersive game where players are trapped in a surreal
dream world and gain control through lucid dreaming. The game emphasizes exploration,
puzzle-solving, and strategic decision-making as players manipulate
the dream world, outsmart enigmatic entities, and confront their
deepest fears. Our target audiences are 16 years old above including all gender. This projcet was
made by us as a group, my responsibility is being game artist that making the character,
background, assets
and also the game flow itself
